USTRANSCOM has a well-established MEOSO Program that calls for the fair and equal treatment of all USTRANSCOM employees and is addressed in USTRANSCOM Instruction 36-11, *Military Equal Opportunity Program*. USTRANSCOM's Equal Opportunity (EO) policy is to promote an environment free from personal, social, or institutional barriers that prevent Service members from rising to the highest level of responsibility possible. LT Murrell serves as EO advisor to military personnel and coordinates command climate surveys and EO training, as requested.

LT Murrell has proudly served in the US Navy for 22 years. Starting out as an E-1, she advanced through the ranks to Chief Petty Officer (E-7). In 1998, she was commissioned as a Limited Duty Officer in the field of Communications and, this past year, she laterally transferred into the Human Resources Community.
